Consumer Products – Railcars – Trucking – Marine – Military*

MTI is a Full-Service Solutions Provider

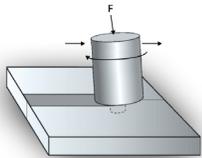

The world's only company offering complete:

Rotary

Linear

Stir

Rotary, Linear and Stir Friction Welding Solutions

Manufacturing Services Contract Welding, including R&D and Materials Management

Design, Processes and Metallurgical Development and Support

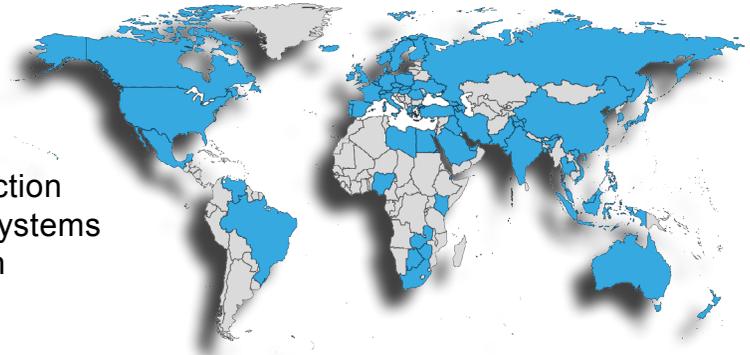

Global Sales, Service and Spare Parts

specializes in:

- Turn-key Integrated Friction Welding Production Systems
- Force-in-motion Friction Welding Equipment
- Weld Development & Application Feasibility

Our machines are in production across six continents.

MTI Manufacturing Services provides you access to friction weld technology, using MTI's expertise and know-how.

- RFW — Solid & tube, 6 - 450 ton weld force capabilities
- LFW — R&D, small part production capability
- FSW — Large sheet or extrusions manufactured up to 50 feet
- Production lots from less than 5 units to greater than 300,000 units
- Pre- and Post-weld processing
- Prototyping and Weld Qualification

ISO 9001
AS 9100

With welding approvals from:

- *Hamilton Sundstrand*
- *GE Aircraft Engines*
- *Boeing*
- *Honeywell*
- *Rolls-Royce*

About MTI

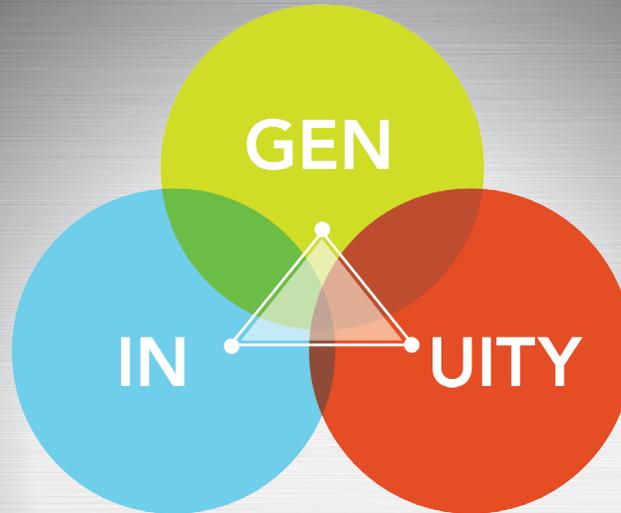

- 4th Generation Family Owned
- Serving our Customers since 1926
- 250+ Employees
- 230,000 sq ft of production space
- Key Supplier to Aircraft Engine Manufacturers for 30 years
- 800 Machines in Service worldwide
- Indiana Small Business of the Year recipient
- Builder of the World's Largest Friction Welder ever designed
- Welded the Largest (20 sq. in.) Steel Part ever done with Linear Friction
- Leading Manufacturer of Production Linear Friction Welding machines
